California Woman's Hospital.

This Hospital is especially devoted to the treatment of diseases of women, and only such cases are admitted.

It is open to all, irrespective of creed or nationality, and offers the comforts of a home, in addition to surgical and medical treatment. The Woman's Hospital exists as a purely medical charity, and gives relief to two classes of patients:

- 1st. To those who are destitute and unable to pay anything.
- 2d. To those whose means are too limited to enable them to pay for private medical attendance at home.

The first class receive all the benefits of this Hospital, including board and nursing, free of charge.

The second class are required to pay a moderate sum for board, while receiving medical attendance and nursing without charge.

The Surgeon-in-Chief or Staff receive no remuneration for their services in treatment of these two classes of patients.

Out-patients are also treated gratuitously by the House Surgeon and Assistant Surgeons.

A number of rooms are set aside for the use of *private patients* desiring to place themselves under the exclusive care of any one of the Hospital staff; and said private patients can be treated as such, receiving all the benefits of the Hospital appliances, upon making their own arrangements with the Hospital for room, board, medicines, nursing, and with the staff for medical services.

For admission apply to the Lady Managers, the Matron at the Hospital, or to the Surgeon-in-Chief.

REPORT OF THE BOARD OF LADY MANAGERS
OF THE
California Woman's Hospital.

*To the Honorable, the Board of Trustees of the
California Woman's Hospital,*

GENTLEMEN: The Board of Lady Managers take pleasure in presenting to your consideration, their Twenty-third Annual Report, of the management of the California Woman's Hospital, its financial condition, its steady and thorough work as a Remedial Institution, and its substantial and satisfactory results.

Comparing our present status with the past, your Honorable Board will see, that each year finds us a little in advance, and that from our small, uncertain beginning, we are reaching out to a permanent and substantial basis, from which to carry on our work in the future.

Among the prime factors of our present success, we first name our Medical Staff, without whose eminent services, we would not stand as now, the foremost as well as the oldest Charitable Hospital in California. To our Surgeon-in-Chief, Dr. Beverly MacMonagle, and his associates, Drs. Chas. Brigham, Paolo De Vecchi, C. Max Richter and others, our grateful recognition is due, as also to our faithful and efficient House Physician, Dr. Sam'l G. Boyd.

The work accomplished during the past year by this Medical Board, has been large and the results have been in a corresponding degree satisfactory. It is upon their rare skill and untiring devotion to this work, that we confidently rest, in our efforts to heal the sick, and restore those who have lost health and hope.

In our special work as a Remedial Institution, our sympathies and our capacities are oftentimes taxed to their utmost limit. We feel that we are hindered and circumscribed by narrow limitations and lack of means; but we do not lose courage, or abate our interest, so long as there remains Christian Charity and kindly hearts in our midst. We have not only faith in our ultimate success as a business enterprise, but also in our ability to meet in a larger degree than heretofore the urgent needs of patients for whose benefit this Hospital was designed.

Upon a careful examination of the Doctor's report for the year ending 1890, you will find the number of cases treated at the Hospital to be two thousand two hundred and seven, two hundred and twenty-two of which were Surgical operations, (capital operations thirty-three), an increase over the previous year of eight. We are happy to record the fact that out of the number treated there has only been a mortality of five.

Our Free Ward has been crowded throughout the year and shows an increase over the previous year of thirteen, one hundred and forty-two free patients having received help and medical aid therein. Helping to swell this list also, is the large number of free out patients, who, through lack of means on their part, and lack of room on ours, have been unable to enter the Hospital, as inmates, but upon whom medical aid has been freely bestowed.

To this large and deserving class of patients our Clinic is a boon and help to such as avail themselves of its benefits.

In view of all this, we feel a degree of pride and satisfaction in the good accomplished during the year and we wish to assure your Honorable Board that in the years to come the work committed under Providence to our hands shall not fail through lack of energy or fidelity on our part.

From the carefully itemized statements of our Secretary, we summarize the following :

Total Expenditures as per Mrs. A. Halsey	\$21,759 77
Total Expenditures as per Mr. A. Halsey	393 37

\$22,153 14

Total Receipts from paying patients	\$19,440 90
Total Receipts from sale of medicines	793 91

Making \$20,234 81

Which deducting our receipts from our expenditures shows a deficit of \$1,918 33

This sum has been made up by donations, annual subscriptions and membership dues.

Paid in Salaries:

Mrs. Logan (Matron).	\$ 740 00
Dr. Boyd (House Surgeon).	600 00
To Nurses.	1,560 00
Wages to Servants	1,928 00

Making \$4,828 00

This amount is included in the item of "Total Expenditures.

Upon referring to the detailed statements of Secretaries, your Board will find the itemized Report, showing in what manner our funds have been expended.

We are especially gratified to record the fact that our Building Fund has been increased by donations from:

Mrs. C. B. Alexander	\$5,000
Mrs. C. P. Huntington	2,500

Making our total fund for this purpose . . . \$12,500

Annual Subscription from Mrs. C. B. Alexander . . .	\$ 500
Additional donations from same	500
From Mrs. E. B. Crocker	1,000
From Mr. J. L. Flood	250
From Mary A. Crocker Trust Fund.	3,000

To these kind friends, for their charities, and to our list of other donors, also to our annual subscribers, we owe a debt of gratitude that words can but feebly express. We thank them not only for timely aid, but also for their manifest faith in our work and their confidence in our ability to wisely and faithfully administer their kindly benefactions.

The average cost of maintaining our Free Ward has been for the past year as in the year previous, about \$350 per month.

Our Endowment Fund of \$11,000 still remains as heretofore intact. This fund is sacredly kept as intended by the donors and the interest derived therefrom aids us somewhat to maintain free beds. For our general expense account we have now on hand \$11,202.53 with which to begin the new year. This surplus is the accretion of donations and annual subscriptions.

It is needless to say, that while dispensing freely to those who are in need, our management has been maintained upon a system of rigid and exact economy.

In this connection we wish again to emphasize our gratitude to our excellent Matron, Mrs. Jane Logan.

We are indebted to her valuable services in assisting to carry out the work of our Medical Board. That our curative success is largely due to her unselfish devotion in the interest of this Hospital and her patient, tender ministrations to the suffering women under her care, we record our appreciation and esteem. To the class of Nurses who compose our Training School she has been both friend and teacher, and the efficiency and fidelity with which they are fitted for their profession, as graduated nurses are testimonials worthy of praise.

NEW BUILDING.

As intimated at our last annual meeting, the question of enlarging our building has been an absorbing thought with us during the past year. Our increased patronage makes the need of more room, and better conditions imperative. We are restricted not only in our domestic management, but through all the departments in our "Curative Work." We are overcrowded, and consequently overworked, having insufficient accommodations, not merely for the numbers who wish to enter the Hospital as patients, but also for our working force. Like the Mollusk we have outgrown our shell. Our Surgeons are working at a great disadvantage by reason of our Surgery being inadequate to meet the want that a thoroughly Scientific practice demands. With improved conditions and appliances, their task of treating the most serious and complicated cases will be greatly aided.

Acting upon this idea, we have had plans and specifications drawn and estimates made of cost of the proposed addition to the present building and find that such a building furnished throughout, as we need, will cost about \$30,000. Now, our Building and General Expense Fund, amounting to \$23,702.53 will be quite inadequate unless we incur indebtedness. This we are loth to do.

The only way out of this dilemma seems to be to increase the contributions to our Charitable Fund. By what means this shall be accomplished we trust your Honorable Board may determine. Certainly the necessities of the case demand our earnest efforts. We are obliged almost daily to refuse admission to our Hospital for want of room. With increased accommodations we shall increase our remunerative patronage so that instead of being always a burden upon the charity of individuals, we shall become nearer self-supporting in the years to come.

To the charitable friends who have so kindly and substantially remembered us, we record our earnest thanks, hoping still further to merit their approval and interest by our fidelity as custodians of their bounty.

To your Honorable Board, our kind friends and advisers, we return our grateful acknowledgments and respectfully submit this report.

To the Public.

In order that the objects for which the California Woman's Hospital was established, and the nature of the work done, and the *charity* dispensed by it, may be *distinctly* understood, the Managers deem it advisable that they should be clearly and explicitly stated.

There are now eight free beds for the reception of patients, who contribute nothing toward their support, and who receive board, nursing, medicines and medical attendance *free of charge*.

Each free patient represents a cost to the Hospital of \$30 a month; but in cases where serious operations are performed this cost is greatly increased, and the cost of the *Free Ward* may safely be stated at an average permanent charge of \$350 per month.

There are, in addition, three endowed beds, making a total of eleven *free patients*, who receive the benefits of the Hospital without any charge. Eight beds are set apart for patients at the moderate sum of \$7.50 per week; and there are other beds at \$10 per week, or more, according to the accommodations and attendance required. It must be distinctly understood that the relief thus afforded to pay patients is as much a charity, only differing in degree, as that afforded to free patients.

A patient may be able to pay a moderate charge for board, and prefer to do so, and yet be unable to pay for private medical attendance at home, the cost of nurses and all the medical appliances her case requires. This Hospital accommodates that class of patients.

Since its enlargement it is also prepared to receive a limited number of *private patients*, who may make their own arrangements with the medical staff for treatment, enjoy absolute privacy and thus avail themselves of the advantages afforded by skillful nurses and constant medical supervision, rather than remain at home, or endeavor to secure these at any public hotel.

A "*clinic*" is held two days in the week, at which advice and treatment is given by the Medical Staff to *outside patients, free of charge.*

Young women desiring to become professional nurses are received, upon proper application, and after two years' training and experience are granted diplomas as surgical nurses.

The following statement of the number of patients treated in the Hospital for the past eleven years is respectfully submitted:

1880	735 patients.
1881	1,102 "
1882	828 "
1883	1,034 "
1884	1,570 "
1885	1,888 "
1886	1,469 "
1887	1,463 "
1888	1,696 "
1889	2,155 "
1890	2,207 "

The enlargement of the Hospital adds greatly to its efficiency; and it is hoped a knowledge of the advantages it offers to suffering women may be extended all over the Pacific Coast.

All interested are cordially invited to visit and examine for themselves; the trustees and Lady Managers desiring it to be widely known and understood, that it is an institution whose domestic affairs are managed by kind, generous, noble women for relieving the diseases of their sex.

California Woman's Hospital.

NOTICE TO PATIENTS.

The Lady Managers of the California Woman's Hospital, having learned that, owing to the existence of the word "State" in the name of this charity, much misapprehension exists as to its character, its means of subsistence, and the nature of the relief it affords, think it advisable to make the following statement, for the information of the public and patients applying for admission.

They wish it to be understood that the Hospital is a pure "Charity;" that it receives no State aid, and is in a measure dependent on public contribution for its support. It is, therefore, not a "State" institution in any sense, and the original incorporators made a great but unintentional mistake in not designating it "The Woman's Hospital of the State of California," which is its proper designation. To remedy this misnomer, the trustees wish it to be named "The California Woman's Hospital," and will only retain the word "State" in their strictly official records, and by this designation it will be known in future.

The medical officers—with one exception—have always given, and now give, their services gratuitously, to the two classes of patients hereinbefore mentioned (see page 7).

All patients admitted to the Hospital, whether free, pay or private patients, are under the entire management of the Board of Trustees and Lady Managers.

The exception referred to is that of the House Surgeon, who in addition to his medical duties, is required to keep the books, take the cases, and compound the medicines; and for these extra duties he receives a salary of \$50 a month.

The Hospital gives relief to two classes of patients:

1st. To those who are unable to pay anything, and who receive medical attendance, medicine, nursing and board, *free of charge*.

2d. To those who, while unable to pay for medical attendance at home, are able to pay for their board in Hospital, and in return receive medical attendance and nursing *without payment*. In this way a most deserving class of sufferers are relieved, whose feelings of independence would not allow them to avail themselves of the free beds.

These are the two classes of patients for whose relief the Hospital was founded, and for whose benefit it is carried on ; but the Lady Managers deeply regret to learn that, from time to time, applicants have not hesitated to avail themselves of the relief this charity affords who are able to pay for the services of a medical man outside its walls ; and they feel that knowingly to sanction this practice would be an injury to the profession at large and a prostitution of the objects of a public charity.

In future, patients desirous of admission into the Hospital, who are able to pay for medical services, in addition to the Hospital charges, must enter *as private patients only*, and can select as their special medical attendant, the Surgeon-in-Chief or any member of the Medical Staff. Should it be at any time found that, in disregard of these regulations, any patient by misrepresentation of her circumstances has obtained gratuitous medical relief, instant dismissal will be enforced.

The Lady Managers wish further to add, that while the usual day and night nursing is furnished to boarders, they must provide themselves with a private nurse, in case a capital operation is performed, or when the illness is so serious as to demand extra nursing.
